## MENANCE OF GROUNDS AND BUILDINGS IN R, NEW YORK, CEMETERY

The following are the specifications for installing concrete footer for headstones at the Bolivar, New York, Maple Lawn Cemetery for the period of two (2) years from April 1 2015 ó March 30, 2017, and are furnished to prospective bidders for the contract for such work. These specifications are to be considered a part of the contract upon its being awarded to the successful bidder:

Bid to be priced per surface sq./ft. of top of the footer. Example: Footer is 40ö wide by 14ö length and 36ö deep. The surface area of the top is  $40\ddot{o} \times 14\ddot{o} = 560\ddot{o}$ ,  $560\ddot{o}$  divided by  $144\ddot{o}$  (1 square foot) = 3.89 sq. ft.

Minimum dimensions of footer must be 2 inches greater than monument on all sides. (i.e. - 8ö x 36ö monument, minimum footer size 12ö x 40ö)

Maximum length to be based on owner's request, but not to exceed 4ø unless owner owns adjacent gravesite.

Depth to be 36 inches and created from solid concrete. No filler material added.

Top 3-1/2ö inches to be framed and have smooth finish. Frame to be removed after concrete has dried.

Top surface of concrete to be smooth finished.

Contractor to dig hole.

Contractor to supply all materials.

Contractor to remove all excess materials.

Contractor to backfill when necessary.

Back fill material to be supplied by Town of Bolivar.
